

Support SOS Foundation Scholarship Fund!

2010

Semester Goal

\$75,000

Education is the foundation in which we build a future, a future for the development of our native culture, traditions and the minds of our children.

With the help of the National Indian Gaming Association's Associate Member Project, we can facilitate the growth of the next generation of Indian country leaders.

Direct donations generated will provide a means for the Spirit of Sovereignty Foundation to help exceptional Native-American students reach their true potential. Donate today!

All additional questions regarding contributions can be directed to Angelica Molina at (202) 546-7711 or by e-mail to amolina@indiangaming.org.

Native American students today, Indian country leaders tomorrow.

Tony Oktorlik, Iisagvik College

"The reason I decided to go to college is to show my kids that even starting your education late you can still achieve your goals. Once I attain my diploma, I hope to find a decent job to give my kids a better life."

Kendra Taylor, Salish Kootenai College

"My youngest son passed away, and I was his main caregiver. He inspired me to pursue nursing; he taught me how to be detail-minded. I know that I can give others similar care and I will continue to help others as a nurse."
